PATTERN: 2 Pass Blackout

CONTENT: 70% Polyester/30% Cotton

COLORS: Grey/White and Grey/Ecru

Foam coated lining used to prevent light transparency, minimize sound transference and maximize room insulation. One side remains unfinished to ensure lowest possible cost, and requires these goods be used as a lining only, never as a standalone fabric.

PATTERN: 3 Pass Blackout

CONTENT: 70% Polyester/30% Cotton

COLORS: White/White, Ivory/White, White/Ecru, Ivory/Ecru

Treated with room darkening acrylic lining on one side and finished colored cloth on the other, this pattern is offered in four color combinations and suitable for standalone use.

PATTERN: Delicaline

CONTENT: 70% Polyester/30% Cotton

COLORS: White, Ivory

Economical, translucent lining providing stability to treatments where light fastness is not required.

PATTERN: Duraline

CONTENT: 100% Polyester

COLORS: Oyster

Our most durable transparent offering increasing the longevity of any treatment through the use of 100% polyester construction.

PATTERN: Densaline

CONTENT: 100% Polyester

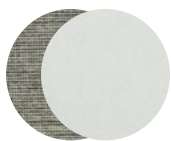

COLORS: White

Interlining used for additional improvement of noise absorption, room insulation or treatment shape (fullness and body).
