

CORNICE
MADERA
COLLECTION

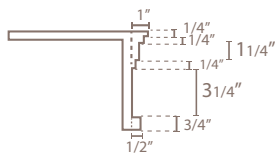

As guestroom window top treatments have evolved from fabric wrapped cornices and valances to general contractor provided millwork, Quiltcraft has similarly progressed. Now offering a collection of painted or stained top treatment pieces, the Madera collection is our solution to requests for seamless and complete packaging of the window top treatments. Available in three standard configurations and over 20 standard finish colors, Madera minimizes lead times and provides continuity with a single window treatment package provider.
